KEY FEATURES OF THE SUNTURF® SYSTEM

SunTurf® is designed for fast, error-free installation. Ground anchors eliminate the need for concrete and pre-cut pipe removes field measuring and cutting. Our online design tool provides site-specific BOM's and drawings. Pre-stamped engineering makes permitting easy.

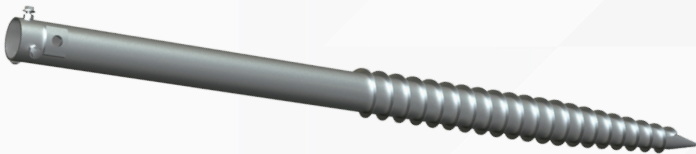

(post-in-concrete and ballast foundation options are available if needed)

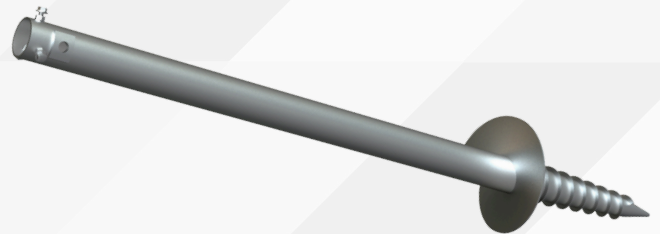

GROUND ANCHORS

Ground anchor options available for a variety of soil conditions.

GROUND SCREW

HELICAL PILE

TECHNICAL DATA

APPLICATION	Ground Mount
MATERIAL	High-grade aluminum, galvanized steel and 304 stainless steel hardware
MODULE ORIENTATION	Landscape or Portrait
TILT ANGLE	10 to 45 degrees
FOUNDATION TYPES	Ground anchor, post-in-concrete, ballasted
STRUCTURAL INTEGRITY	Pre-stamped engineering available
CERTIFICATE	UL2703
WARRANTY	25 years
